World Fuel Services Celebrates Global Network Growth

February 6, 2018 – LONG BEACH – In 2017, World Fuel Services (WFS) welcomed more than 50 new branded and unbranded supplied locations throughout the United States (US), United Kingdom, France, Germany, Italy, and Australia to its global network. With this expanded footprint, and new locations already joining the network in early 2018, WFS is optimistic that they will share their capabilities and bespoke solutions with many new airports and FBOs around the world in 2018.

Among the 13 new locations now served in the US are Jet Aviation Washington-Dulles (KIAD), Lane Aviation (KCMH), Monaco Air Duluth (KDLH), Waco Jet Center (KACT), Bellingham Aviation Services (KBLI), and Million Air locations in Indianapolis (KIAD) and Houston (KHOU). Jet Aviation, Lane Aviation and Monaco Air Duluth are both members of the Air Elite Network of Diamond Service Locations.

WFS expanded its on-the-ground operations in Europe throughout 2017, and is physically operating at an additional 80 airports, bringing the total worldwide to more than 100. This includes 22 fixed-based operators (FBOs) – six in the UK, three in France, six in Germany and seven in Italy. WFS now operates out of 46 airports across the continent, creating a unique regional network of hubs for its customers, who can benefit from the peace of mind that they can access WFS' digital tools, technical support and payment services in more locations than ever, with the aim of expanding even further throughout 2018.

World Fuel Services Network encompasses more than 550 FBOs, 3,000 contract fuel locations, 7,600 AVCARD® merchants, 17,000 trip support service vendors, and 78 Air Elite Network Diamond Service locations – truly a global network to partner with for success in your world.

Visit World Fuel Services and more than 60 co-exhibiting FBOs from the World Fuel Services Network and the Air Elite Network in rows 1400 and 1500 at the 2018 NBAA Schedulers & Dispatchers Conference in Long Beach, California from February 6-8, 2018.
