FOR IMMEDIATE RELEASE

World Fuel Services Network Welcomes Cambridge Airport World Fuel Services awarded fuel supply tender at popular airport in Europe's leading university city

London, United Kingdom (March 8, 2017) – World Fuel Services announced today that they welcome Cambridge Airport (EGSC) into their global World Fuel Services FBO Network. Marshall Aerospace and Defence Group, the owners of Cambridge Airport, recently advised World Fuel Services that they were chosen to supply Jet A-1 with FSII (fuel system icing inhibitor) and Avgas 100LL to the airport.

"We are delighted to have been given the opportunity to serve Cambridge Airport with our reliable bulk fuel and services offer" said Mark Amor, World Fuel Services' Vice President Commercial Development. "We are committed to investing with our customers for the long term, and our team is excited to partner with Cambridge to develop flexible solutions that meet the airport's current and future needs."

Cambridge Airport (cambridgeairport.com) is a regional airport located 60 miles north of London and just 30 miles north of Stansted Airport. Cambridge is one of the United Kingdom's most regarded general aviation airfields. In addition to private aircraft handing/FBO and light general aviation services, Marshall is renowned for its conversion, modification, maintenance and support of military and commercial aircraft, business aviation services and its support of OEM's, Air Forces, airlines and operators from around the world. The airport has over 1.25 million square feet of hangar space, a 1,965 meter runway, and is capable of handling large wide-bodied aircraft.

"We carried out a significant piece of work with our procurement and quality teams in selecting our fuel supplier. We are delighted to be working with World Fuel Services and developing a long term relationship with them in providing an exceptional fuel delivery service for our customers," said Nathan Deverell, Cambridge Airport General Manager.

With their membership in the World Fuel Services Network, Cambridge Airport has access to comprehensive business and general aviation Airport & FBO solutions designed to foster their business' success and help them better serve customers with world class offerings. From training to equipment and marketing support, World Fuel Services' team of dedicated and local industry professionals provide customised solutions to their network members. World Fuel Services Network FBOs cater to flight operators by offering World Fuel Services Contract Fuel with an extra incentive for operators to use Contract Fuel or their AVCARD® through FlyBuys™ Rewards to customers with every purchase.

About World Fuel Services Network

The World Fuel Services Network is a network of branded FBOs that provide quality fuel, personal service and experienced support. The global network includes FBOs under the World Fuel Services, Ascent and Phillips 66® Aviation fuel brands, along with the Air Elite Diamond Service designation.

NOTES TO EDITORS

Marshall Aerospace and Defence Group (www.marshalladg.com) is a leading independent aerospace and defence company, specialising in the conversion, modification, maintenance and support of military and commercial aircraft, business aviation services including sales, the design and manufacture of special mission vehicles and shelters for the armed forces and humanitarian aid organisations, and the provision of personnel and training into advanced engineering sectors.

The company's primary customers are major platform OEMs - such as Boeing, Airbus, BAE Systems, Bombardier, and Lockheed Martin – commercial airlines (supported through cabin upgrades, including IFE upgrades, and refinishing programmes) and major MRO organisations.

The company has more than 80 years' experience in aviation and a full-spectrum engineering capability that includes project/product conception, design, manufacture, test, certification, integration/embodiment, in-service support and legacy platform/system sustainment. These capabilities have been exported to more than 30 countries and the company is working with 10 of the world's air forces in relation to the C-130 platform.

-more-

Marshall Aerospace and Defence Group is headquartered in Cambridge, where it employs more than 2,000 highly trained personnel on its 800 acre site, which includes 1.2 million ft² of hangar space plus the company-owned Cambridge Airport. The company also has two other sites in the UK (Broughton in Flintshire, Wales and Kirkbymoorside in Yorkshire) and offices in Australia, The UAE, Canada and The Netherlands.

Marshall Aerospace and Defence Group is part of the Marshall Group, which employs more than 6,000 worldwide and which has a turnover of £2.3 billion.
